

Recovering
HOPE

How to Help a Family Member.

Acknowledge the Challenge

Supporting someone in recovery can be **hard**. It's **normal** to feel overwhelmed, but you are **not alone**.

Set Boundaries with Care

Boundaries protect both you and your loved one. Clearly **communicate** what you can and cannot do and allow them to take **responsibility** for their recovery.

Encourage Treatment and Support

Offer **gentle encouragement** for your loved one to engage in treatment, but understand that **recovery is their journey**. Setbacks may happen, and that's **okay**.

Practice Healthy Communication

Listen without judgment. Use **positive, encouraging language**, and avoid trying to **control** the situation. Practice using open and honest communication. Use "I" statements to express feelings without blame.
